

Quarterly Report

as at June 30, 2010

Investment Philosophy

The Fund's investment objective is to provide long-term total investment returns with moderate risk through a combination of long-term capital growth and current income.

The Fund invests primarily in common and preferred shares of large and mid-capitalization Canadian companies, Canadian federal and provincial bonds, Canadian corporate bonds rated A- or better by DBRS Limited and high quality money market instruments.

The Portfolio Manager uses a disciplined investment process which takes the entire investment universe and narrows investment options to only companies with market leadership, quality management and excellent businesses.

Portfolio Manager Commentary

by William C. Wolfenden, MBA, CFA
Chief Investment Officer,
Doherty & Associates Investment Counsel, Ottawa, ON
Lead Portfolio Manager for the Brigata Canadian Balanced Fund

For the quarter ended June 30, 2010 the Fund declined 4.71%, underperforming the 60% S&P/TSX Composite Index (-5.51%), 35% PC Bond Index (2.93%), 5% PC Bond 91-Day Treasury Bill Index (0.12%) blended benchmark, which declined 2.28% for the period.

The equity/fixed income ratio of the Fund at June 30, 2010 was 66.0% equity, 32.0% fixed income (including 10.9% of preferred shares), and 2.0% cash equivalents. The equity portion of the portfolio was 88.6% in Canadian securities and 11.4% in foreign securities (7.6% of the total portfolio). The top equity holdings as of June 30, 2010 were Suncor Energy, TD Bank, Royal Bank, Manulife Financial Corp. and Sun Life Financial. Our largest foreign holdings were Johnson & Johnson, Vodafone Group, CVS Caremark Corp., IBM and Cisco Systems Inc.

The Fund's equity sector weightings include an overweight position in Financials, Energy, Telecommunication Services and Consumer Staples; and an underweight position in Materials. The overweight position in Telecommunication Services had the largest positive impact on the Fund's performance while the overweight position in Financials had the largest negative impact on performance. Foreign holdings also had a negative impact on the Fund this quarter.

The bond portfolio had a corporate bond weighting of 70% with all bonds rated A- or better by DBRS. The bonds underperformed slightly in the quarter as the Fund was underweighted in long dated bonds - which had a very strong quarter. We would expect the Fund to continue to be underweighted in long dated bonds as it is felt that the Fund would not be rewarded for taking on the extra risk should interest rates increase. In addition the Fund's overweight position in high quality corporate bonds hurt relative performance as spreads widened compared to government bonds.

Top Ten Holdings

Suncor Energy Inc. common	4.27%
TD Bank common	3.84%

Please read the prospectus before investing which summarizes the Fund's objective, fees, expenses and associated risks. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated. This commentary is for information purposes based on information available as of June 30, 2010 and is not specific financial or investment advice. You should not rely on its content without seeking the advice of your financial advisor.

Investors should take note that certain statements in this report about a fund, including its strategy and expected future performance, are forward-looking. Forward-looking statements are statements that are predictive in nature, depend upon or refer to future events or conditions, or that include words such as "may," "will," "should," "could," "expect," "anticipate," "intend," "plan," "believe," or "estimate," or other similar expressions. Any statement that is made concerning future strategies or performance is also a forward-looking statement. Statements that look forward in time or include anything other than historical information are subject to risks and uncertainties, and actual results, actions or events could differ materially from those set forth in the forward-looking statements.

The forward-looking statements are by their nature based on numerous assumptions, which include, amongst other things, that (i) the funds can attract and maintain investors and has sufficient capital under management to effect its investment strategies (ii) the investment strategies will produce the results intended by the portfolio manager, and (iii) the markets will react and perform in a manner consistent with the investment strategies. Although the forward-looking statements contained herein are based upon what the portfolio manager believes to be reasonable assumptions, the portfolio manager cannot assure that actual results will be consistent with these forward-looking statements.

Forward-looking statements are not guarantees of future performance. Any number of factors could contribute to differing results including, among other things, general economic, political and market factors, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings and catastrophic events. This list of facts is not exhaustive. Investors should not place undue reliance on forward-looking information and should be aware that the fund may not update any forward-looking statements whether as a result of new information, future events or otherwise.
